About me

Frontend Developer with over 3 years of professional experience in building modern, scalable, and high-performance web applications. Proficient in HTML, CSS, JavaScript, and advanced frontend frameworks including React and Next.js. Experienced in working with Git and GitHub for version control and collaborative development.

Skilled in state management solutions such as Redux and React Query, with a strong understanding of data fetching, caching, and application state optimization.

Hands-on experience with backend integration and databases using modern ORMs including Prisma, Drizzle, and Mongoose, enabling efficient and scalable data-driven applications.

Comfortable working with popular UI libraries and design systems such as Material UI, ShadCN UI, DaisyUI, and NextUI, alongside deep expertise in Tailwind CSS for building responsive and maintainable user interfaces.
